

Pre-req: Tubular Peyote Stitch

Materials:

- Black or Dark Green Nymo
- DB608 S/L Blue Zircon
- size 8/0 triangles medium grn AB color#: 1831
- size 14 gold seed beads color#:465
- size 11/0 aqua seed beads transparent silver lined
- Item LTA

String on 2 gold, 2 zircon, 2 tri's, 2 aqua, 2 gold, 2 zircon, 2 tri's, and 2 aqua. Take thread back through all beads to form a circle. Knot. Thread should be exiting an aqua bead, (with one aqua bead to it's right).

Row1 – Str on 1 aqua, skip over next gold and go through gold after that one  
Str on 1 gold, skip next zircon, go through zircon after that  
Str on 1 zircon, skip next tri, go through tri after that  
Str on 1 tri, skip next aqua, go through aqua after that  
Str on 1 aqua, skip over gold, go through gold after that  
Str on 1 gold, skip next zircon, go through zircon after that  
Str on 1 zircon, skip next tri, go through tri after that  
Str on 1 tri, skip next aqua, go through aqua after that. End of Row. Do not string on any beads. STEP UP by taking thread on through the next aqua (adjacent up bead).

As with all peyote, you can now count that you have 3 rows of tubular peyote.

Do 57 more rows, (8 beads per row), for a total of 60. At least that is how many I did to get the look I wanted.

In tubular peyote remember, always string on the same bead as the bead your thread just exited.

Free tubular peyote instructions with illustrations are on my site.
