

Spool 1 Blank *Guideline* Graph Paper For **Delica(r) beads, size 11/0** Even Count Flat Peyote Stitch (String on 6 beads, do a total of 38 rows) <http://www.artcraftworld.com/beads.htm>

Done on a wooden spool that was first painted with black acrylic paint. These spools are in many craft supply store, and are on-line at places like larascrafts.com

The spool size is: 1/2" x 3/8"

Designing in the Round - Even though the above graph is a rectangle, since you are making a bead tube out of it, a person can only view a small portion of your design at any one time. Keep in mind that as your design approaches the left and right edges of the work, the design begins to curve around, and the appearance of the design diminishes
